

## Our Service

If only one vehicle is needed then the most common format our service takes is:

To convey the bridesmaids or selected guests, up to the maximum seating capacity, from a specified address to the wedding venue.

The car then returns to complete the same journey for the bride and whomever is accompanying her.

After the ceremony and photography are complete, the newlyweds are taken to the venue hosting their reception. When all photographs with the wedding couple requiring the vehicle have been taken, the driver will then be dismissed.

If you opt for two or more vehicles, each will convey guests, as set out above, from a pre-stated address to the wedding ceremony following onto the reception.

## Types of Wedding

### Traditional

Legally binding ceremony held in a religious building.

Followed by a reception at a differing venue.

### Civil Ceremony

Non religious legal ceremony performed at a licensed premises.

Often held at the same venue as the reception.

### Registry Office

This is a legal ceremony, as above, performed at a registry office.

The reception is held at a separate venue.

## Civil Partnership

A ceremony held in conjunction with signing the Civil Partnership Register for same sex couples.

As above, ceremony and reception are often held at the same venue.

Our drivers are smartly uniformed and are all long-standing, experienced members of the team - courteous and helpful at all times.
